

Mubea

COIL SPRING & POWER TRAIN SYSTEMS

Global Market Leader to the OEM's

Principal coil spring producer for the OEM's providing a complete range and the newest applications

Innovative lightweight products for the OEM's development of future emissions-free micro mobility vehicles

Family-owned global player with 48 locations in 20 countries

Chassis Components

- Coil Spring Systems
- Stabilizer Systems
- Suspension Components

Powertrain

- Belt Tensioner Systems
- Valve Springs
- Connecting Products

Spring body protection from salt, dirt, chipping. Single or double layer epoxy powder coating

Mubea Tailored Coatings (MTC)

Coating Systems for Coil Springs

Belt Tensioners

Stress is optimized so friction is reduced to a minimum. Lowers fuel consumption

Effective end-coil protection against damage from abrasion and corrosion

Mubea DuraConnect

Coil Spring Support Composite System

MLR (Mubea Light & Robust) coil spring system provides a weight reduction of up to 15%
